

Message from your ACHE Regent
Summer 2023

Hello Maine ACHE Members and Fellows,

I hope this update finds you well and that you all have had the opportunity to find some sun during this wet Maine summer.

First, I want to take a moment to update you on some exciting educational and networking events that the local chapter has scheduled in the coming months!

On October 13 we will be hosting our 6th annual “Shaping the Future” event in collaboration with Healthcare Financial Management Association and the Department of Health Management and Policy at the University of New Hampshire. This event will feature three panel discussions as well as a keynote address by Jeff Weiss, Chief Strategy Officer for Mass General Brigham. The event has been approved for three Face-to-Face credits and two qualified education credits by ACHE.

On November 2 and 3 we will be hosting our NNEAHE Annual Meeting at the Sheraton Portsmouth Harborside Hotel in New Hampshire. November 2 will have two tracks. The first will be an educational workshop with ACHE faculty member Amer A. Kassi, PhD and will focus on agility and resiliency in healthcare leadership. This event qualifies for six Face-to-Face credits. On this day, we will also be offering an alternate track for those choosing to participate in the Board of Governors exam preparatory session.

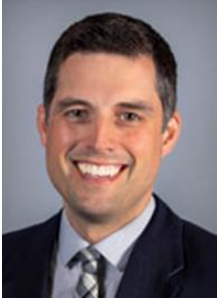

Day two of this event will showcase two panel discussions and our annual business meeting. In the first panel, we will welcome back our state hospital association leaders for a legislative update of issues facing healthcare leadership in addition to our annual business meeting. Our second panel will focus on the role of emotional intelligence in successful healthcare leadership.

Invitations to these events were sent via Constant Contact. We realize this is often filtered out by spam blockers. More information on how to register can be found on our new website (<https://nne.ache.org>), social media, or by reaching out to me directly.

Thank you all for everything you do to provide exceptional healthcare in Maine each and every day. Please do not hesitate to reach out with questions regarding ACHE or the Northern New England chapter at any time. I look forward to seeing many of you at our upcoming events this fall.

Best!

Tyson
